

DAILY OPERATIONS SECTION ROLL UP REPORT

BRANCH: Emergency Services

DATE: September 5, 2017

Note: If you don't have anything to report for an item, list NSTR: Nothing Significant to Report

CRITICAL SHORTFALLS (people, things, systems that prevent doing the mission. JFO response: Get it ASAP)

- NSTR
-

SHORTAGES: people, things, systems that you have a need and the capacity to use. Causes degradation, but not mission prevention. JFO response: Look into it and get as able.

- NSTR
-

CONCERNS (policy, procedure, organizational flow that you do not confidently understand. JFO response: Clarify and/or find someone knowledgeable to make contact.

- NSTR
-

KEY OBJECTIVES/TASKS NOT MET: IAP work that could not get done and why. JFO response: reprogram for subsequent Operational Periods or help eliminate the obstacles to achievement.

- NSTR
-

LOCAL OR STATE HOT ISSUES: what you hear or see from field staff that the JFO must be made aware. JFO response: Coordinate, clarify, or dispel.

- Task Force Vector (includes TX DSHS) coordinating initial requirements for aerial mosquito spraying. Currently working with DoD on identifying a staging area (potentially Kelley AFB). TX DSHS in determining mission scope and preliminary spray maps (potentially over 6 million acres). GSA sourcing insecticide product.

FORECAST: areas of concern or lines of effort that you see growing beyond 72 hours. JFO response: Assign Future Ops Planners (FOPS); start to coordinate, collaborate, initiate a fix.

- Awareness/messaging of vector control project

UNEXPECTED VIPS OR INTERACTIONS: Awareness. JFO response: Share with leadership

- NTSR
-

ESSENTIAL ELEMENTS OF INFORMATION: you desire info to shape your operations – i.e., when will power & wastewater treatment be restored in (area), etc. JFO response: Find out and reply.
